Registered to Receive Alerts?

Unfortunately, we have been experiencing foul weather events during the past few weeks. As a reminder, it is **mandatory** for everyone to register their primary work email address, work phone number and, if they have one, their government mobile phone number, into the [Wide-Area Alert Network \(WAAN\)](#).

To update your personal information right click on the bright purple globe icon (NMCI computers only) in the lower right corner of your monitor and then select "Access Self-Service."

Inbox – This will show all active alerts. If you get a pop-up on your computer and close it, you can go back to it here if you missed some information as long as it is an active alert.

My Info – Fill out info in the following blocks: First Name, Last Name, Display Name, Building Number. (Note: If your building number is not shown in the drop down list, notify Emergency Manager at 322-2320). Do not worry about major command field unless your specific command is shown.

My Devices – Enter info for all devices you want to receive alerts on. When entering phone numbers, do not use dashes or parenthesis (ex: 7573222320). E-mails are usually the fastest way you will receive an alert so ensure you enter your work e-mail under Primary Work E-mail. If your mobile phone receives text message then enter mobile phone number for Text Messaging block. Note: Not all alerts go out to all devices as alerts take longer to go out when more devices are selected. Phone alerts take longer than pop-up and e-mails. During normal work hours, alerts are not normally sent to home phones or home e-mails dependent upon situation. When done, click "Save."

Any issues, please contact the Naval Station Norfolk Emergency Management office:

[Eugene Lambert](#), Emergency Manager, 322-2320

[ABH1\(AW/SW\)](#) [David Sweaza](#), Emergency Management Assistant, 444-2469

Personnel not on the NMCI network should contact the POCs above to discuss how they can receive alerts.

Events of Interest

4 Mar: EM Working Group Meeting (1000, B-30)

4 Mar: Monthly Giant Voice Test (1200)

6 Apr: Funding a College Education Briefing (1130, Navy College Office, Bldg. 1E, Rm 8. Reservations required; call 489-3329 or 683-2312

Bring Your Green To Work - Energy Savings Per Cubicle

The small steps you take at work to save energy make a big difference in reducing energy consumption to meet mandated reduction benchmarks.

During cold weather, take advantage of the sun's warmth by keeping blinds open during daylight hours. Make sure air conditioning vents are not blocked so air can circulate freely.

Most computers and monitors used by DoD personnel are Energy Star compliant, with power management settings that will automatically put them into low-power mode when not in use.

Unplug battery chargers or power adapters when cellular phones and other personal electronics are fully charged or disconnected.

Remember to turn off lights when leaving conference rooms and your work space, especially at the end of the day.

Vehicle Registration

In accordance with CNIC instruction 5530.14A (page 233) and Naval Station Norfolk message (DTG 272010Z JUN 13) the requirement to register your vehicle with Pass and ID did not go away with the elimination of base decals.

It is in the best interest of all our Sailors and civilians to register vehicles on base. Recently we had some vehicles vandalized and other vehicles damaged during a storm but in both cases notification attempts failed because the vehicles were not registered. Get your vehicle registered today! For more information contact NSN Pass & ID at 322-2971.
